

Wood Wharf G3

176

ModuSat® Heat Interface Units

Project Overview

Wood Wharf G3 is a 28-storey residential tower situated next to Canary Wharf that accounts for a significant part of the Wood Wharf expansion Masterplan. The Wood Wharf development as a whole covers 23 acres and is one of central London's largest privately owned development sites.

Our Solution

Evinox will provide indirect heating and instantaneous domestic hot water to 176 apartments via our ModuSat® XR Twin Plate heat interface units. Our integrated Modbus® energy meters will connect to a third party data logger via a hard wired TCP/IP ethernet network for the collection of metering data.

Equipment Overview

- ✓ **ModuSat® XR-ECO Twin Plate Heat Interface Unit**
With integrated MID approved class '2' heat meter with Modbus® output.
- ✓ **ViewSmart Room Controller**
Simple to use controller with back lit display. used as a room thermostat. Programming of heating and keep-warm schedules. Ability to read heat meter.
