

Cherry Park 1224

ModuSat® Heat Interface Units

Project Overview

The Cherry Park Development will feature over 1200 new homes alongside facilities such as a residents' gym, swimming pool and workspaces. This is a significant part of Uni-bail-Rodamco-Westfield's strategy to significantly increase the densification of exceptional and highly connected retail destinations by adding offices, residential, hotels and other uses, where relevant.

Our Solution

Evinox are working closely together with Halsion to deliver a proficient district heating solution to 1224 new homes. Indirect heating and instantaneous domestic hot water will be supplied via our ModuSat® XR- ECO Twin Plate HIU to 407 of the apartments. The remaining 817 apartments will be served by our ModuSat® XR-ECO Combined Heating, HotWater and Cooling units.

Equipment Overview

- ✓ **ModuSat® XR-ECO Twin Plate Heat Interface Unit**
With integrated MID approved class '2' heat meter with Modbus output.
- ✓ **Modusat® XR-ECO Combined Heating, Domestic Hot Water and Cooling Unit**
With integrated MID approved class '2' heat meter with Modbus output.
- ✓ **SmartTalk® Data Logger**
Convenient central point where all ModuSat® HIU's are linked to via an ethernet TCP/IP network.
