

Wood Wharf A2/A3

1,067 ModuSat[®]

Heat Interface Units

Project Overview

Wood Wharf A2 & A3 is part of a large development in East London, Canary Wharf. The Wood Wharf development which began in 2014 is expected to be completed within the next two years providing 5 million sq.ft. of residential, retail and office space. Evinox have provided a wide range of products across several phases of this development helping establish a complete district heating solution.

Our Solution

Indirect heating and instantaneous domestic hot water has been supplied via our ModuSat[®] XR-ECO Twin Plate HIU's. We have also provided cooling to apartments via our Single Plate Cooling units and for the penthouse apartments we supplied our ModuSat[®] Floor Standing units that come with an integral, fast recovery hot water tank. All units are designed to operate with Evinox Smart-Talk[®] two-way communication system for remote metering and diagnostics.
